Note: (extracted from Section 8 of the EIA Report)

- Existing vegetation will be retained / transplanted to other locations within the site where possible to retain the landscape and visual context of the area.
- 66 nos. (i.e. 27.4%), 165 nos. (i.e. 68.5%) and 10 nos. (i.e. 4.1%) of trees will be retained, transplanted and felled respectively.
- Around 4 times the number of trees felled will be planted along the footpaths on Salisbury Road to compensate the loss from tree-felling.
