Updated on:	Orientation: Runs in roughly an east-west direction.	Historical Associations: WW II
Type: Terrace Wall	Map Ref: N/A	
Description: Dry stone wall of uncut stones. Approximately 1.5 metres in height.		
Decorative features: None.		
Renovations: The wall has been patched with cement in places.		
Setting: Along the hill slope in what is today the middle section of the village.		
Additional Notes: According to local informants the wall was built just before the arrival of the Japanese. During that time, guns were provided to the villagers by the Government. The wall also served as a protection against thieves. Two village guards took duty at the boulder wall gate every night. During that period, all villagers lived behind the wall. After the War, villagers began to build houses in front of the wall.
