

LEGCO QUESTION NO. 15**The number of escalator incidents involving injuries
in each of the past three years**

Year	Total number of incidents involving injuries ^(Note)	Number of injury incidents involving escalators installed before 18 March 1994	Incidents involving injuries sustained as a result of trapping between the skirt guards and the steps	
			Number of incidents	As a percentage of the total number of incidents
2001	596	443	41	6.9
2002	620	428	32	5.2
2003	589	436	48	8.1

Note: The total numbers of incidents involving injuries include cases which took place on all escalators irrespective of their year of installation.
