## Appendix 5

## Action Agenda Proposed by the Focus Group on Trade and Business

| 5          | Strategic Proposals                                                                 | Proposed Specific Measures                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Implementation<br>Schedule | Responsible<br>Bureaux /<br>Departments                                                         | <b>Relevant</b><br>Organizations | Remarks |
|------------|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|-------------------------------------------------------------------------------------------------|----------------------------------|---------|
| <b>T1.</b> | To inculcate a<br>"Brand Hong<br>Kong" culture<br>throughout the<br>whole community | <b>T1-1</b> To establish a high-level<br>"Brand Hong Kong Group" as<br>the Brand Creator and Brand<br>Manager of the "Brand Hong<br>Kong". This Group should be<br>supported by a dedicated team<br>equipped with sufficient<br>resources to work with<br>relevant government and<br>non-government agencies to<br>undertake specific activities to<br>take forward the "Brand Hong<br>Kong" message on a sustained<br>basis. As a start, the Group<br>may consider the following<br>priority items and longer-term<br>actions: | 2007                       | Commerce,<br>Industry and<br>Technology<br>Bureau, and<br>Information<br>Services<br>Department |                                  |         |

| Strategic Proposals | Proposed Specific Measures                                                                                                                                                                                                                                                 | Implementation<br>Schedule | Responsible<br>Bureaux /<br>Departments | Relevant<br>Organizations                                                                                                                                            | Remarks |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|-----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
|                     | Priority items                                                                                                                                                                                                                                                             |                            |                                         |                                                                                                                                                                      |         |
|                     | <b>T1-2</b> Organising seminars and workshops to equip senior government officials with the latest thinking on how to incorporate design and branding in their organisations' interfacing with the public.                                                                 | 2007                       |                                         | Hong Kong Design<br>Centre                                                                                                                                           |         |
|                     | <b>T1-3</b> Leveraging on the world's attention on the 10 <sup>th</sup> Anniversary of the Hong Kong Special Administrative Region (HKSAR) establishment in 2007 –                                                                                                         |                            |                                         |                                                                                                                                                                      |         |
|                     | To launch a revitalised "Brand<br>Hong Kong" publicity<br>campaign to showcase Hong<br>Kong's vibrancy 10 years after<br>the unification with the<br>Mainland, including<br>promotion of success stories<br>of Hong Kong home-grown<br>brands, enterprises, and<br>people; | 2007                       |                                         | Celebration<br>Preparatory<br>Office,<br>Commerce and<br>Industry Branch of<br>the Commerce,<br>Industry and<br>Technology Bureau,<br>Hong Kong Trade<br>Development |         |

| Strategic Proposals | Proposed Specific Measures                                                          | Implementation<br>Schedule | Responsible<br>Bureaux /<br>Departments | Relevant<br>Organizations                                                                                                                                                                                                                                                         | Remarks |
