

Summary of Further Representations

Further Rep. No.	Further Representer	Subject of Amendment	Subject of Further Representation	Representer's Proposed Amendment	PlanD's Responses
F1	Tai Po Fung Yuen Village Office represented by Ip Chi Kang	Amendment Items B1 and B2	Supports the proposed amendments <u>Grounds of Representation</u> (a) <u>Item B1</u> – there are old trees and shrine at the site, which should not be affected. (b) <u>Item B2</u> – air pollution and traffic congestion would be reduced.	Nil	Noted
F2	Melanie Moore	Amendment Item B2	Objects to the draft Tai Po OZP No. S/TP/25 <u>Grounds of Representation</u> Nil	The original “GB” zoning should be maintained, except for the sites at Fung Yuen and Kon Hang (Amendment Items D2 and H respectively on draft Tai Po OZP No. S/TP/25) which should be rezoned to “Conservation Area”.	(a) The site near Fung Yuen together with the adjoining “GB” zone provides a landscape buffer among developments in the area. There is no strong justification to rezone the site to “CA”.

Further Rep. No.	Further Representer	Subject of Amendment	Subject of Further Representation	Representer's Proposed Amendment	PlanD's Responses
F2 (cont'd)					(b) The proposals related to maintaining the original "GB" zoning on the OZP and rezoning of the site at Kon Hang from "GB" to "CA" are considered invalid as they are not the subject of the current proposed amendments, whilst the site to the west of Nethersole Hospital has already been reverted to its original "GB" zoning.
