## **APPENDIX 10**

Summary Table of Various Departmental Comments

## Proposed Minor Relaxation of Building Height Restriction for Permitted Social Welfare Facility (Residential Care Home for the Elderly) and Proposed House Use with Conservation Proposal in "Government,

Institution or Community (1)" Zone at Lots 1695 S.E ss.1 RP, 1695 S.F ss.1 and 1695 S.H RP (Part) in D.D.120 and Adjoining Government Land, Tai Kei Leng, Yuen Long, New Territories

(Application No. A/YL/302)

## Response-to-Comment Table

<u>Response to co</u>	mment lable
Departmental Comments	Response
Email from PlanD received on 9 August 2023 refers:	
Buildings Department:	
On Further Information (3) (FI(3)) received on 15.6.2023:	
(a) Regarding the proposed high headroom (7450mm) on G/F in general building plans received by this department on 27.3.2023 and mentioned in applicant's letter dated 15.6.2023 in FI(3), please be advised that the Authorized Person had been required to provide further justification for high headroom on the whole G/F, in particular of the areas not involving the historical building. Paragraph 7(D)(v) in our disapproval letter dated 24.5.2023 refers.	Further justification for high headroom on the whole G/F, in the historical building, would be provided during building plan
(b) Please note that detailed checking for the proposed high headroom of remaining areas on G/F should be	Noted with thanks.
justified and proposed gross floor area calculation would be considered during plan submission stage.	
On Further Information (4) (FI(4)) received on 7.7.2023:	
(c) Regarding the Response-to-Comment table and revised layout plan of G/F attached in FI(4), it is noted that the conserved building 'Siu Lo' with covered landscaped area is proposed on the G/F of the proposed RCHE building. Please be advised that fire barriers having adequate fire resisting rating (FRR) under Section 35 of the Building (Construction) Regulation should be provided between the fire compartments of the conserved building with landscaped area on G/F and the remained areas of the proposed RCHE building, i.e. walls, fire doors leading to the landscaped area, and floor slab on 1/F of proposed RCHE building covered the conserved building 'Siu Lo' with covered landscaped area. Clause C7.1 of Code of Practice for Fire Safety in Buildings 2011 (FS Code) refers. Also, protection of all openings, joints and penetrations located in a fire barrier should have an FRR not less than that of the fire barrier. Clause C3.2 of FS Code refers.	Noted with thanks.
Email from PlanD received on <mark>5 July 2023</mark> refers:	
Buildings Department:	
(a) Regarding the emergency vehicular access (EVA) plans in FI(1), demonstration of the EVA for the existing building on the same site in compliance with Section 6 in Code of Practice for Fire Safety in Buildings 2011 shall be provided during the general building plan submission stage.	Noted with thanks. The relevant documents will be submission stage.
(b) Regarding the revised Heritage Conservation Strategy plan in FI(1) and new plan showing the layout of the conserved building block and the area opened for public visit in FI(2), it is noted that the development involves co-existence of new building and existing heritage building, the applicant should clarify on whether there would be any proposed building works to be carried out and/or change in use in the existing heritage building, in particular at the area opened for public visit, during the general building plan submission stage. The applicant should also be reminded that the total development intensity of the site should not exceed the limits stipulated in the 1st schedule of Building (Planning) Regulations during the development process. Detailed comments on the proposed works to the existing heritage building will be provided at the plan submission stage.	
(c) Fire barriers having adequate fire resisting rating under Section 35 of the Building (Construction) Regulation should be provided to separate the new building and the existing building.	A landscaped area between the two buildings is designed to existing building. Please refer to the G/F Layout Plan of the A
(d) Provision of means of escape in case of emergency, barrier free access, open space for the domestic building, lighting and ventilation of the existing building should not be jeopardized by the proposed new building.	It is confirmed that provision of means of escape in case of space for the domestic building, lighting and ventilation of jeopardized by the proposed new building. The relevant do general building plan submission stage.

Social Welfare Department:	
Application for the Incentive Scheme to Encourage Provision of Residential Care Home for the Elderly	
Premises in New Private Developments ("Premium Concession Scheme")	
(a) While the applicant has indicated his intention to apply for the Premium Concession Scheme for the development of the proposed Residential Care Home for the Elderly (RCHE), given an enhanced scheme with a 3-year pilot period has been put in place since 20.6.2023, the applicant should study the details of the Premium Concession Scheme in the Practice Note (PN) No. 5/2023 issued by Lands Department on 20.6.2023. As the total Gross Floor Area (GFA) of the RCHE premises will increase and such GFA will be exempted, would the applicant please refer to General Guideline on the calculation of GFA for RCHE premises as set out at Annex in the PN.	Noted with thanks.
(b) With a view to meeting the objective of providing a quality RCHE, the applicant should also refer to the updated version of i) Guidance Note of RCHE: ii) Best Practice in Design and Operation of RCHE; and iii) Best Practices Guidance - Basic Provision Schedule Specific Requirements for RCHE when Designing and Planning for the Proposed RCHE. Given the RCHE is a newly planned project, the applicant is reminded to comply with the entire ventilation requirements stipulated in Para. 4.9 "Heating, Lighting and Ventilation" in the latest version of the Code of Practice for Residential Care Homes (Elderly Persons) (CoP). We would consider the support-worthiness of the proposed RCHE for the Premium Concession Scheme upon receipt of a formal referral from Lands Department and seek the policy support from Labour and Welfare Bureau on the application as and when appropriate.	Noted with thanks.

The proposed RCF licensing and statutory height requirements.
- In this light, the applicant is advised to ensure provision of the height of the proposed RCHE shall be in full compliance with relevant licensing and statutory height requirements.		

n	bilateral	sides.

vided on 1/F to 4/F.

situated at a height within 21.85m above RCHE is in full compliance with relevant

(b) Heating, Lighting and Ventilation Requirements	
- Regarding the Heating, Lighting and Ventilation Requirements for RCHE as set out in para 4.9 of CoP which has been updated in February 2023, the applicant shall take note of all the latest requirements stipulated in the para. Among others, he shall pay special attention that the proposed RCHE should adopt the requirements on fresh air intake of mechanical ventilation system in compliance with the principles as stated at para 4.9.3a.	Noted with thanks.
(c) <u>Minimum Area of Floor Space of Each Resident</u>	
- While the proposed RCHE is intended to provide 240-260 bed spaces within the intended Gross Floor Area (GFA) of 5,400 sqm., the applicant shall ensure the area of floor space to be provided for each resident of the proposed RCHE shall be in compliance with the statutory and licensing requirements.	A minimum floor space per resident at 9.5 sqm is allowed was and licensing requirements.
- The applicant should especially take note of the proposed upward adjustment of the statutory minimum area of floor space per resident for different care levels of RCHEs as proposed in the Residential Care Homes Legislation (Miscellaneous Amendments) Bill 2022 (the Bill) (i.e. the proposed statutory minimum floor space per resident for the "High Care Level Homes" will be increased from 6.5 sqm. to 9.5 sqm., whereas the proposed statutory minimum floor space per resident for the 8.5 sqm. to 8 sqm. upon passage of the Bill and according to its different implementation stages).	
Views on support-worthiness of the Applicant's intention for joining the Incentive Scheme	
(d) For the present S.16 planning application, we note that applicant has further expressed his intention to join "Scheme to Encourage Provision of RCHE Premises in New Private Developments" (Incentive Scheme).	The Applicant intends to seek Formal Policy Support to th subject site under the "Incentive Scheme to Encourage Prov Elderly Premises in New Private Developments" to grant con from payment of land premium.
(e) Subject to the result of the planning permission considered by Town Planning Board, the consideration of the Planning Department (PlanD) and other government departments, and the applicant's clarification that the proposed RCHE as an independent building separating from the historic building "Siu Lo" and with its independent support facilities (including but not limited to the E&M facilities, parking and loading/ unloading provision) for the operation of the proposed RCHE, we may consider the worth-supportiness of the proposed RCHE under the Premium Concession Scheme upon receipt of a formal referral from Lands Department and seek policy support from Labour and Welfare Bureau on the application when suitable.	Noted with thanks.

Arrangement of Public Guided Tours and Public Access	The latest successed internetation and succine successory
(i) In addition to the provision of display boards for interpretation at the proposed "Heritage Garden", free online virtual tours, free private tours for non-government organizations and schools, and free guided/self-guided visits to the exterior of Siu Lo, we appreciate that the applicant has taken the initiative to enhance the public access arrangement by arranging participants of guided tours and private tours to visit the interior of Siu Lo (Section 4.4.3 (f) & (g) of the Supplementary Planning Statement ("SPS") and Section 2.2 of	The latest proposed interpretation and opening arrangement Management Plan. Please refer to the <b>Figure 7</b> , which shows with the parts to be opened for guided tours and private to line).
the Heritage Appraisal refer). If the subject planning application is approved by the Town Planning Board ("TPB"), the applicant is reminded to include the latest proposed interpretation and opening arrangement in the Conservation Management Plan.	Coherently, p.8 of the application form is revised to remark t will be opened for regular public visits for conservation purply AMO.
Proposed New RCHE building	
(ii) According to Section 4.4.3 of the SPS, the vertical distance between the new RCHE building and the Annex Block has been raised from 1.2m in the previous scheme to approx. 1.5m to 3.15m under this current scheme to facilitate the occasional roof repair/maintenance works of the Annex Block. From the heritage conservation perspective, AMO has no adverse view on the current proposal given it would allow more vertical distance between the proposed RCHE building and the Annex Block of Siu Lo, hence more space for the repair and maintenance of the pitch-roof of the Annex Block. However, it is noted from Section 4.4.3 on p.11 of the SPS that the vertical distance ranges from approx, 1.5m to 2.3m, instead of 1.5m to 3.15m as observed in relevant drawings. The applicant is advised to clarify and confirm the vertical distance between the RCHE building and the Annex Block.	It is confirmed that the vertical distance between the RCHE from 1.5m to 3.15m. The relevant statement of Section 4.4.3
(iii) The name of the graded building quoted on p.11 of the SPS should read as "Tat Yan Study Hall". Please revise accordingly.	The name of the graded building is revised accordingly.
(iv) According to Section 4.4.3 (b) of the SPS, it is a heritage conservation strategy to provide an	With the intention to preserve the entire Grade 3 historic
unobstructed view to the Main Building and Annex Block of Siu Lo from the main road, i.e. Tai Tong Road. While the principle of enhancing the vista of the graded building is appreciated, the applicant is advised to supplement elevation(s) or photomontages to demonstrate that the strategy is achievable in the current scheme. Besides, for better understanding of the visual impact on Siu Lo, the applicant is advised to provide	development potential to provide RCHE facilities, the annex over by the proposed RCHE building. 	enhanced. Specifically, a larger extent of the Annex Block wi with less obstruction by the necessary structural columns of F
(v) As noted from Section 4.2 of the SPS, structural analysis of the proposed RCHE building have been conducted, and long structural span and thick structural elements would be adopted to reduce the visual impact arising from the proposed RCHE building on Siu Lo. However, it is noted from Viewpoint 3 of the Visual Impact Assessment that two columns are designed in front of Siu Lo to support the proposed RCHE building, and one of the columns appears to be erected at the mid-span in front of Siu Lo. Compared with the scheme in the approved Planning Application no. A/YL/289 submitted by the same applicant, the design of the columns in the current scheme seems to impose more visual impact on Siu Lo. The applicant is advised to consider whether the structural design of the RCHE building could be further optimized to reduce the visual impact arising from the columns in front of Siu Lo.	For both the previously approved scheme and the revision supporting the new RCHE building will unavoidably be close development model. Nonetheless, Siu Lo is more hidden beh
